

KApro proudly introduce their KORG KROME Library

KApro „Deep Space Horizons“

Die KApro „Deep Space Horizons“ Library bietet Ihnen ein Sound-Set aus

- 32 Programs in der Bank F und
- 10 Multisamples mit 30 Samples im Gesamtumfang von 31,2 MB für den KORG KROME.

Die KApro „Deep Space Horizons“ Library ist mit allen KORG KROME Modellen kompatibel.

In den 1960er Jahren begann eine neue Ära der cineastischen Science Fiction. Berühmte und beliebte TV-Serien entstanden genauso wie der zu Recht bejubelte, vielleicht beste Kinofilm dieses Genres, nämlich der Klassiker „2001: Odyssee im Weltraum“ des unvergessenen Regisseurs Stanley Kubrik. Mit der brandneuen KApro „Deep Space Horizons“ Library bringt KApro eine Sammlung von unvergessenen Effektklängen, die genauso zum Science Fiction gehören wie das berühmte „Beam Me Up, Scotty!“

Erhaschen Sie den KApro-Spirit mit der KApro „Deep Space Horizons“ Library, ein absolutes MUST HAVE für jeden KROME User!

KApro proudly introduce their KORG KROME Library

KApro “Deep Space Horizons”

The KApro "Deep Space Horizons" Library offers a sound set comprising of

- 32 programs, located in bank F, and
- 10 multisamples with 30 samples, using 31.2 MB of the sample RAM memory, for the KORG KROME.

The KApro "Deep Space Horizons" Library is compatible with all KORG KROME models.

In the 1960s, a new era of cinematic science fiction began. Famous and popular TV series were created and, also, the rightly acclaimed movie "2001: A Space Odyssey" by Stanley Kubrick introduced us to new, yet miraculous horizons. With the brand new KApro "Deep Space Horizons" Library, KApro brings a collection of unforgettable effect sounds that are just for science fiction like the famous "Beam me up, Scotty!"

Catch the KApro spirit with the KApro "Deep Space Horizons" Library, an absolute **MUST HAVE** for every KROME user!

How to load the KApró “Deep Space Horizons” Library data into your KORG KROME Music Workstation

Before you begin, please make sure that you backup important KORG KROME data onto an SD/SDHC card before you begin this procedure. If you load the data contained in the KApró “Deep Space Horizons” Library, existing data on your KORG KROME could be overwritten.

Data in the KApró “Deep Space Horizons” Library will be loaded into the Bank F.

1. Unpack the received zip archive. It contains the following data
 - a. “META.IMG” and “SAMPLE.IMG”
which contain the PCM samples of the KApró “Deep Space Horizons” Library,
 - b. “DESPAHO.PCG”
which contains the programs of the KApró “Deep Space Horizons” Library,
 - c. “KApró Deep Space Horizons for KORG KROME - PDF Documentation.pdf”
which is this documentation.
2. Store these data on a SD/SDHC Card.
3. Insert the SD/SDHC Card into the appropriate slot on the rear panel of your KORG KROME with the power turned off.
4. Turn on the power to your KORG KROME.

When the KORG KROME finishes its boot procedure, the optional PCM data contained in the KApró “Deep Space Horizons” Library will be loaded automatically. During the loading process a message will be displayed indicating “Optional PCM Bank Now Updating.”

5. Press the MEDIA Button to go to MEDIA mode.
6. Select the LOAD tab on the display.
7. The display will show file names for the SD/SDHC card in the display.
8. Load the “DESPAHO.PCG” files in your KORG KROME.

When you press “DESPAHO.PCG” on the TouchView display, the display will invert. The “Load” button will be placed on the lower right side of the display, press the “Load” button again, and "Load DESPAHO.PCG" will be shown on the display.

9. Press "OK" on the TouchView display

At this point the loading process will begin.

During the loading process the following message will be shown: “Now writing into internal memory”. When the loading process has completed, you will be returned to MEDIA mode. At this point you can return to any other mode on the keyboard and start enjoying the sounds.
