Kein Wunder, dass sich KORG KROME User markante Bläserklänge auch für ihr Instrument wünschen. Durch zahlreiche Anregungen unserer Kunden inspiriert, widmete sich KApro der Aufnahme einiger „Horn Sections“ und präsentiert nun einen neuen klanglichen Leckerbissen, die KApro „Power Horns“ Library.

Erhaschen Sie den KApro-Spirit mit der KApro „Power Horns“ Library, ein absolutes MUST HAVE für jeden KROME User!

## **KApro proudly introduce their KORG KROME Library**

### **KApro "Power Horns"**

The KApro "Power Horns" Library offers a sound set comprising of

- 64 programs, located in bank F, and
- 4 stereophonic multisamples, using 31.7 MB of the sample RAM memory, for the KORG KROME.

The KApro "Power Horns" Library is compatible with all KORG KROME models.

Horn sections have been present in virtually every kind of contemporary music, be it rock, pop, ska, reggae, soul, funk, jazz, latin etc. No wonder that KORG KROME users have been longing for the spiffing sounds of horn sections in their instruments. Encouraged by many requests, KApro set out for recording such horn sections and prepared this fine sound library.

Catch the KApro spirit with the KApro "Power Horns" Library, an absolute MUST HAVE for every KROME user!

## **How to load the KApró “Power Horns” Library data into your KORG KROME Music Workstation**

Before you begin, please make sure that you backup important KORG KROME data onto an SD/SDHC card before you begin this procedure. If you load the data contained in the KApró “Power Horns” Library, existing data on your KORG KROME could be overwritten.

Data in the KApró “Power Horns” Library will be loaded into the Bank F.

1. Unpack the received zip archive. It contains the following data
  - a. “META.IMG” and “SAMPLE.IMG”  
which contain the PCM samples of the KApró “Power Horns” Library,
  - b. “KApróBRASS.PCG”  
which contains the programs of the KApró “Power Horns” Library,
  - c. “KApró Power Horns for KORG KROME - PDF Documentation.pdf”  
which is this documentation.
2. Store these data on a SD/SDHC Card.
3. Insert the SD/SDHC Card into the appropriate slot on the rear panel of your KORG KROME with the power turned off.
4. Turn on the power to your KORG KROME.

When the KORG KROME finishes its boot procedure, the optional PCM data contained in the KApró “Power Horns” Library will be loaded automatically. During the loading process a message will be displayed indicating “Optional PCM Bank Now Updating.”

5. Press the MEDIA Button to go to MEDIA mode.
6. Select the LOAD tab on the display.
7. The display will show file names for the SD/SDHC card in the display.
8. Load the “KApróBRASS.PCG” files in your KORG KROME.

When you press “KApróBRASS.PCG” on the TouchView display, the display will invert. The “Load” button will be placed on the lower right side of the display, press the “Load” button again, and "Load KApróBRASS.PCG" will be shown on the display.

9. Press "OK" on the TouchView display

At this point the loading process will begin.

During the loading process the following message will be shown: “Now writing into internal memory”. When the loading process has completed, you will be returned to MEDIA mode. At this point you can return to any other mode on the keyboard and start enjoying the sounds.
