

**V2 Electric Guitars - New Sounds For Korg Krome**  
16 Programs - 8 Combis - 32 MB Multi Samples

**Korg Krome Volume #2 - Electric Guitars - Kid Nepro's second release for Krome is now available! A great mix of new programs, combis and samples, perfect for producers and keyboard players looking to add some hot guitar sounds to their Krome workstation. Electric Guitars contains 16 Programs, 8 Combis and 32 MB of new sample data. The new sound library includes a wide assortment of the best Electric Guitar samples from our friends at Big Ball Music. Everything from our 1957 Vintage Guitar to our brand new custom Electric AX, these new sounds will have you jamming all night. Sounds include clean guitars and harmonics for that light rock or funk track, or full blown distorted or overdrive power leads and feedback that are perfect for rock or metal tracks.**

**All sounds were programmed with the modern controls from the latest Korg workstation to bring you an amazing collection of electric guitars. All programs and combis include ARP and Drum Track functions as well as control assignments to the Krome Joystick, SW1 & SW2 and User Knobs 1-4. The result is the best guitar sound with the best modern controls that will inspire you to create amazing new music. Krome Electric Guitars is perfect for your next studio project or live performance. Or if you just want to jam along, the cool ARP's and beats included on all Programs & Combis will have you jamming for hours.**

**Kid Nepro's Krome sounds are delivered via Korg's download delivery only. After you order, Korg will e-mail you all the info needed to download your new sounds. Just download the sounds and save the files to your smart media card, insert the card into Krome and load. It's quick, simple and best of all, no shipping charges. Just click the loading instructions link for more info.**

**Krome Electric Guitars is programmed by keyboard player, composer and sound programmer Steve Proto. Steve has been programming Korg keyboards since 1985. He has produced sounds for nearly every Korg workstation since then, including the Korg M1, 01W, Trinity, Triton, KARMA, M3 Series & Kronos workstations. Steve has created thousands of sounds for over twenty Korg synths over the past three decades. More info at: [www.kidnepro.com](http://www.kidnepro.com).**
