V1 Vintage Synths - New Sounds For Korg Krome
64 Programs - 16 Combis - 32 MB Multi Samples

Korg Krome Volume #1 - Vintage Synths contains the finest in virtual analog synthesis for your Korg Krome Workstation. Only $49. USD. Vintage Synths includes a sonically rich and varied palette of diverse sounds that will make your tracks rock. Programs feature new basses, leads, pads, strings and a wide mix of new synth & rhythmic sounds using the powerful Krome dual arpeggiator's. All programmed for easy tweaking, just the way you would on a vintage analog synth.

The best thing about sampling vintage analog synths into the Krome is that we have then added all the amazing Krome effects and real time controls to create a mix of super analog synths. All programs and combis include ARP and Drum Track functions as well as control assignments to the Krome Joystick, SW1 & SW2 and User Knobs 1-4. The result is the best analog sound with the best modern controls that will inspire you to create amazing new music.

Krome Vintage Synths is perfect for your next studio project or live performance. Or if you just want to jam along, the cool ARP's and beats included on all 64 Programs & 16 Combis will have you jamming for hours!

Kid Nepro's Krome sounds are delivered via our download delivery only. After you order, we e-mail you all the info needed to download your new sounds. Krome Vintage Synths is programmed by keyboard player, composer and sound programmer Steve Proto. Steve has been programming Korg synthesizers since 1985. He has produced sounds for nearly every synth workstation that Korg has released since then, including the Korg M1, 01W, Trinity, Triton, KARMA, M3 Series & Kronos workstations. Steve has created thousands of sounds for over twenty Korg synths over the past three decades. More info on Kid Nepro sounds at: www.kidnepro.com.
