

Krome Killer Keyboards Loading Instructions

After you download, unzip the "Krome Killer Keyboards" file. Included in the folder: NEPRO5.PCG,

Remove the file from the Krome folder and save it to the Smart Media Card.

After you have saved the files to the card, remove the card from your computer and insert into into the Krome card slot.

Power up your Krome with the card inserted. After your Krome fully boots up, follow these steps to load the PCG file.

Choose Media/LOAD
Choose NEPRO5.PCG
Choose LOAD

Programs load into USER F bank

PCG data will remain in the Krome Memory and does not need to be loaded each time you power up.
