Thank you for purchasing the A-Pian library. We hope you enjoy playing the instrument and wish it supports your musical ideas or even better, inspire new ones.

The A-Pian Grand piano is an old Gaveau piano. Gaveau was a French piano manufacturer. The company was established in 1847 in Paris and used to be one of the three largest piano makers in France (after Érard and Pleyel).

This particular piano was build in 1960 and is referred to as a "crapaud" ("Petite Grand" in English), which means that it's a little smaller than a "quart de queue" (baby grand). It has a very particular sound, very bright and full of inharmonicity in the bass due to the short length of the strings.

A-Pian

The sample-set includes three velocity sustain layers, three velocity release layers, key noises plus a resonance layer. Each note of the piano was recorded for full duration, providing an accurate sound with no artificial decay envelopes or sample loops.

It requires 501MB if fully loaded into sample memory but only 21MB when using virtual memory. 11 Programs are provided.
