

EXs 181 - Vintage Synths V3 - Midi Mix - New Sounds for Kronos HD-1

64 Programs - 16 Combis - 282 MB New Multi Samples

The Patch King has now made available an amazing collection of sounds from our custom sample libraries for the Kronos HD-1 sound engine. Midi Mix includes only the finest mix of analog and digital synth sounds all set up and ready to load into your Kronos. Something wonderful happens when you combine the warmth of a vintage analog synth to the clean digital sound and multi effects of a modern workstation. Midi Mix contains samples from over twenty of the best synthesizers released over the past three decades. All sounds are sampled from our custom made sound libraries and then layered together to create totally unique textures.

Vintage Synths 3 contains 282 Megs of new multi samples. The best thing about sampling vintage analog synths into the Kronos is that we have then added all the amazing Kronos effects and real time controls to create a mix of super analog synths on steroids. All programs and combis include full KARMA functions and drum track as well as control assignments to the Kronos Joystick, Vector Stick, SW1 & SW2 and User Knobs 5-8. The result is the best analog sound with the best modern controls that will inspire you to create amazing new music. Kronos Vintage Synths 3 is perfect for your next studio recording or live gig. Or if you just want to jam along, the cool KARMA grooves included on all 64 Programs & 16 Combis will have you jamming for hours. Note: Kronos Version 3.0.3 OS or later required. More info on Kid Nepro sounds at: www.kidnepro.com.

Kid Nepro's EXs Expansion Sample Series take advantage of Kronos' built-in SSD hard drive and samples stream direct from disk. Functionality-restricted demo versions can be downloaded for evaluation; purchasing an authorization code removes the restrictions. KRONOS System Version 3.0. or later required - download at korg.com/Kronos/support
