

Kronos Electric Guitars V3 - New Sounds for Kronos HD-1

32 Programs - 16 Combis - Guitar Loops - 61 MB New Multi Samples

Korg Kronos EXs 182 - Electric Guitars Volume 3 has picked up where Volume 2 left off. With another hot collection of new Guitar samples for Kronos. Kid Nepro teamed up with veteran guitar player and sound guru, John McShane to record another amazing mix of new samples. From this material, we spent numerous hours carefully manipulating and morphing the sounds to forge a sound library that will no doubt be your Kronos go to library for E-Guitars.

All programs and combis include full KARMA functions and drum track as well as control assignments to the Kronos Joystick, Vector Stick, SW1 & SW2 and User Knobs 5-8. Kronos Electric Guitars V3 is perfect for your next studio recording or live gig. Or if you just want to jam along, the cool KARMA grooves included on all 32 Programs & 16 Combis will have you jamming for hours. Also included are 32 Hot Guitar Loops which turn your Kronos into Overdrive!

Electric Guitars V3 was programmed by keyboard player, composer & sound programmer Steve Proto. Steve has been programming Korg synthesizers since 1985. He has produced sounds for nearly every synth workstation that Korg has released since then - including the Korg M1, 01W, Trinity, Triton, KARMA & M3 Series. Steve has created

thousands of sounds for over twenty Korg synths over the past three decades.

More info on Kid Nepro sounds at: www.kidnepro.com.

Kid Nepro's EXs Expansion Sample Series take advantage of Kronos' built-in SSD hard drive and samples stream direct from disk. Functionality-restricted demo versions can be downloaded for evaluation; purchasing an authorization code removes the restrictions. KRONOS System Version 3.0. or later required.
