KApro proudly introduces the KORG KRONOS

KApro Iconic Suite

EXs356 „Century Orchestra“ Library

Die Sampling-Spezialisten von KApro sind seit fast einem Jahrzehnt für ihre preisgekrönte Klangdesigns bekannt. Im Laufe der Zeit hat KApro gut einhundert Klangbibliotheken für den KORG KRONOS veröffentlicht. KApros symphonische Klangkreationen, u.a. aus den Serien „**Symphonic Dreams**“ und „**Epic Composer**“, werden seit ihrer Verfügbarkeit von unseren Kunden, zu denen wir auch zahlreiche namhafte und international bekannte Stars und Musiker zählen dürfen, gefeiert.

Viele unserer zahlreichen Musikerfreunde wünschen sich neben unseren umfassenden „**Symphonic Dreams**“- und „**Epic Composer**“-Werken auch schlanke und flexibel einsetzbare, aber dennoch mit unserem fulminantem KApro-Sound ausgestattete Klangbibliotheken mit möglichst wenigen Programs, die nach Belieben und ohne Aufwand an nahezu jede Speicherposition des KORG KRONOS gelegt werden können.

Es ist gerade die Herausforderung der Sparsamkeit, der wir uns gestellt haben. Wir haben aus dieser Herausforderung eine Tugend gemacht und gleichzeitig die Frage der Modularität neu aufgeworfen...

...

... und beantwortet!

Nun ist es soweit! KApro bringt die ersten modularen und einfach kombinierbaren symphonischen Klangbibliotheken der *KApro Iconic Suite*.

Jede *KApro Iconic Suite* Klangbibliothek ist einer bestimmten symphonischen Klangsparte gewidmet, z.B. der Solovioline (EXs289 „Solo Violin“), den schnellen Streichern (z.B. EXs290 „Fast Strings 1“), den langsamen Streichern (z.B. EXs291 „Slow Strings 1“) und den Orchesterbläser (EXs292 „Cinematic Brass“). Mit dieser neuartigen modularen Kombinatorik gelingt es, mit wenigen Multisamples und somit mit einer geringen Belastung des verfügbaren RAM-Speichers auszukommen und dennoch klanglich zu überzeugen.

Alle *KApro Iconic Suite* Klangbibliotheken haben wenige, oft nur eine Handvoll Programs. Dennoch fangen die Programs den wesentlichen Charakter einer jeden Klangsparte treffend ein. Die Programs einer jeden *KApro Iconic Suite* Klangbibliothek sind gebrauchsfertig und

dynamisch spielbar. Darüber hinaus bereichern die sinnvolle Belegung der Controller des KORG KRONOS und deren Verwendung das produzierte Klangerlebnis.

Jede *KApro Iconic Suite* Klangbibliothek verwendet sorgfältig ausgewählte Multisamples in bewährter KApro-Qualität. Neben der neuartigen modularen Kombinatorik hat uns die gewünschte Sparsamkeit veranlasst, jede *KApro Iconic Suite* Klangbibliothek mit nur wenigen Multisamples auszustatten und auf diese Weise die Auslastung des RAM-Speichers im KORG KRONOS so gering wie möglich zu halten.

Alle *KApro Iconic Suite* Klangbibliotheken setzen auf eine einzige, **gemeinsame** „Wave Sequences“-Bank. Deshalb ist die Umspeicherung der Programs und auf Wunsch auch der „Wave Sequences“ im Handumdrehen erledigt.

Die vorliegende

KApro Iconic Suite EXs356 „Century Orchestra“ Library

bringt den überwältigend-fulminanten Blockbuster-Klang eines tragend-„sordino“ bis hin zu „clusterartig“-atmosphärisch spielenden, großen Sinfonieorchesters mit bis zu neunzig (!) Musikern.

Die *KApro Iconic Suite* EXs356 „Century Orchestra“ Library hat 6 Programs. Werksseitig sind

- die 6 Programs in der Bank U-G untergebracht.

Die 6 stereophonen Multisamples benötigen lediglich 17 MB des „Virtual RAM“.

Erhaschen Sie den KApro-Spirit mit der

KApro Iconic Suite EXs356 „Century Orchestra“ Library,

ein absolutes MUST HAVE für jeden KRONOS User!

KApro proudly introduces the KORG KRONOS

KApro Iconic Suite

EXs356 "Century Orchestra" Library

KApro's sampling specialists have been known for their award-winning sound designs for almost a decade. Over the years KApro has published a good hundred sound libraries for the KORG KRONOS. Since their availability, KApro's symphonic sound creations, e.g. from the "**Symphonic Dreams**" series and the "**Epic Composer**" series, have been celebrated by our customers, including numerous internationally well-known stars and musicians.

In addition to our extensive "**Symphonic Dreams**" and "**Epic Composer**" products, many of our numerous musician friends also want slim and flexible sound libraries that are still equipped with our brilliant KApro sound, however, with as few programs as possible, which can be added at will and with little effort to any memory position of the KORG KRONOS.

It is precisely the challenge of thrift that we have set ourselves. We have made a virtue of this challenge and at the same time raised the question of modularity...

...

... and gave a remarkable answer to it!

Now the time has come! KApro brings the first modular and easily combinable symphonic sound libraries, our *KApro Iconic Suite*.

Each *KApro Iconic Suite* sound library is dedicated to a certain symphonic sound genre, e.g. the solo violin (EXs289 "Solo Violin"), the fast strings (e.g. EXs290 "Fast Strings 1"), the slow strings (e.g. EXs291 "Slow Strings 1") and the orchestral brass (EXs292 "Cinematic Brass"). These novel modular combinatorics have been important assets in achieving a convincing sound yet with as few as possible multisamples and thus at a lowest possible memory consumption, leaving tons of space to further valued sound creations.

All *KApro Iconic Suite* sound libraries contain only a few programs, however, catching the essential spirit of each sound genre precisely. The programs of each *KApro Iconic Suite* sound library are ready to use and dynamically playable, just as you are used to from KApro. In addition, the reasoned assignment of the KORG KRONOS controllers and their use enrich the sound experience.

Each *KApro Iconic Suite* sound library uses carefully selected multisamples in proven KApro quality. Aside the aforementioned novel modular combinatorics, the desired thrift prompted us to equip each *KApro Iconic Suite* sound library with just a few multisamples and in this way to keep the RAM memory utilization in the KORG KRONOS as low as possible.

All *KApro Iconic Suite* sound libraries rely on a single, shared "wave sequences" bank. Therefore, the placement of programs to virtually any memory location of the KORG KRONOS can be done in next to no time.

The present

KApro Iconic Suite EXs356 "Century Orchestra" Library

offers the overwhelmingly brilliant blockbuster sound of a large symphonic orchestra with up to ninety (!) musicians, playing soft and "sordino" to "cluster-like" atmospheres.

The *KApro Iconic Suite* EXs356 "Century Orchestra" Library has 6 programs. By default,

- the 6 programs are located in the Bank U-G.

The 6 stereophonic multisamples only require 17 MB of the "virtual RAM".

Catch the KApro spirit with the

KApro Iconic Suite EXs356 "Century Orchestra" Library

an absolute MUST HAVE for every KRONOS user!

HOW TO INSTALL THE EXs EXPANSION EXs356 ON THE KORG KRONOS

[SOURCE: KORG]

INTRODUCTORY NOTICE

This command installs the selected EXs data onto the internal SSD, along with any associated files (.KSC, .PCG, .SNG etc). Note that EXs can only be installed onto the internal SSD, and not to USB storage media.

The **KApro EXs356 "Century Orchestra"** Library comprises one EXs library, namely

- **EXs356.**

Using the **KApro EXs356 "Century Orchestra"** Library requires the installation of this EXs library, **EXs356**, mandatorily.

In what follows, the installation of the EXs library **EXs356** is described in detail.

Please follow the installation instructions given below (steps 1 until 11) step by step and word by word in order to enable a successful installation.

INSTALLING THE EXs EXPANSION EXs356 ON THE KORG KRONOS

1. After you downloaded the EXs data (demo version)

copy the zipped files to the

top level (“root”) of a USB storage device,

e.g. a USB stick, which you use for the data transfer between your computer and the KORG KRONOS.

2. Un-zip the zipped files directly on the top level of your USB storage device (cf. step 1).

Un-zipping the zip archives will result in five folders, each containing several different files:

- one file having the extension “.exsins”,
- a second file having the extension “.tar.gz” and
- a third file without any extension whose filename begins with the upper case letter “S”.

The directory structure on your USB storage device, with <DriveName> referring to the top level of your USB storage device, should then look like shown below:

```
<DriveName>\
    EXs356.zip
    EXs356\
        EXs356.exsins
        EXs356.tar.gz
        S356
```

“EXs356\” being a folder.

Note: Depending on your browser settings, the downloaded files may be unzipped automatically.

*As mentioned above, one of the files in the resulting folder has a name which ends with “tar.gz.” **Please do not un-zip this tar.gz file.***

3. Safely disconnect your USB storage device (cf. steps 1 and 2) from your computer.
4. Connect your USB storage device (cf. steps 1 to 3) to the KORG KRONOS.
5. Go to the **Disk Utility** page on the KORG KRONOS.
6. Using the **Drive Select** menu at the bottom of the page, select your USB storage device (cf. steps 1 to 4).

You may need to wait a few seconds after connecting the device before it is recognized.

The directory listing will look like

```
EXs356.zip
```

EXs356\
“EXs356\” being a folder.

7. **Open the folder named “EXs356” on the top level of your USB storage device (cf. steps 1 to 4 and 6), containing the EXs data from step 2.**

When opening the folder “EXs356” you should find the following files:

EXs356.exsins
EXs356.tar.gz
S356

8. **Select the file “EXs356.exsins” whose name ends in .exsins from within the “EXs356” folder.**

The “exsins” suffix stands for “EXS INStaller”.

*When a “.exsins” file is selected, the **Load** button changes to read **Install**.*

*Only one EXs can be installed at a time. If Multiple Select is On, **Install** will be disabled. Please switch of Multiple Select, then.*

9. **Select Install EXs from the menu, or press the Install button.**

The system will check to confirm that the installation files are valid, and that there is sufficient space on the SSD to install the EXs. Next, a dialog box will appear:

Found installer for: [EXs name] Space required: [nnn] MB SSD1: [disk name] [nnn] GB available

10. **Press Install to continue with the installation,**

or

press Cancel to stop without installing.

An “are you sure?” message will appear to confirm the installation.

11. **Press OK to continue with the installation,**

or

press Cancel to stop without installing.

The installation will then begin. This may take a while; a progress bar shows the installation as it proceeds.

Next, the newly installed files will be verified.

After the verification has completed successfully, the progress bar will disappear, and the installation is complete. The EXs sample data itself is installed on an invisible, protected part of the disk.

To use the EXs, you'll load its associated files (.KSC, .PCG etc.); for the location of these files, see the documentation of the specific EXs.

That's it ☺.

Now, you can begin to use the **KApro EXs356 "Century Orchestra"** Library. To do so,

- please load the **EXs356.PCG** file and then
- please load the **EXs356.KSC** file.

Now, your KRONOS is ready to be played.

USING THE NEWLY INSTALLED EXs [SOURCE: KORG]

LOADING THE NEWLY INSTALLED .PCG AND .KSC FILES

To use the **KApro EXs356 "Century Orchestra"** Library please load the file named

EXs356.PCG

first.

Next, please load the file named

EXs356.KSC

which will load the required links to the PCM data contained in the **KApro EXs356 "Century Orchestra"** Library to provide hard disk streaming while you play.

Make sure to back up any sounds before overwriting them in memory.

You may need to free up sample RAM, or use the "Clear" option when loading the .KSC.

You can also

- *load specific sounds from the .KSC,*
- *make your own sub-sets of its sounds, and*
- *automatically load the new samples at startup.*

For more information, see

- *Global "0-3: KSC Auto-Load" on page 762.*
- *Global "0-4: Sample Management" on page 765.*
- *Disk mode menu command "Load .PCG" on page 829.*
- *Disk mode menu command "Load .KSC" on page 838.*

AUTHORIZATION

If an authorization code is required, the EXs will work in demo mode, fading in and out, **until the authorization code is purchased and entered into the KORG KRONOS.**

For more information, see "Global P6: Options Info" on page 803.

ERROR MESSAGES

When installing, error messages may be displayed to indicate problems, as described below.

“Error: invalid option file” means that the installation data is corrupted. **Copy the zip archive file to the USB media again and start with the installation again**, or if that fails, **download the data again**.

“Error: invalid option file” might also mean that you do not install from within a folder, e.g. “EXs356\”. Please always install from within the relevant folder.

“Error: not enough disk space for the installation” means that the internal SSD is too full. Remove data from the SSD, backing it up to USB media, in order to free up space.

UNINSTALLING EXs

Optional EXs may be uninstalled to reclaim space on the internal disk(s).

For more information, see “Uninstall EXs” on page 814.
