

KApro proudly introduce their KORG KRONOS EXs44 Library

KApro EXs44 "Dynosaur 2"

Die KApro EXs44 "Dynosaur 2" Library bietet Ihnen ein vielfältiges Sound-Set aus

- 96 Programs,
- 32 Wave Sequences und
- 82 Multisamples (davon 36 stereophon)

für den KORG KRONOS.

Waren in den 1970er Jahren Synthesizer aus dem Norden Deutschlands noch ein „Geheimtipp“, so änderte sich dies schlagartig mit der Präsentation eines auf „Wavetables“ und digitalen Oszillatoren basierenden polyphonen Synthesizerkonzepts mit analogen Hüllkurven, LFOs und Filtern. Sehr lebendige und gleichzeitig filigrane sowie druckvolle und bis dahin nicht gehörte Synthesizerklänge eroberten die internationale Popmusik. Bis etwa Mitte der 1980er Jahre wurden dem staunenden Publikum ganze drei Generationen dieser revolutionären Technik vorgestellt. Die KApro EXs44 "Dynosaur 2" Library bringt diesen einzigartigen Klang nun auf den KORG KRONOS und zeigt, welche umwerfenden klanglichen Dimensionen in der Kombination der ursprünglichen Sounds mit der einzigartigen Technik des KORG KRONOS erreichbar sind.

Ein absolutes MUST HAVE für jeden KRONOS User!

Anm.: Diese Bibliothek benötigt die Betriebssystemversion 3.0.2 oder höher.

KApro EXs44 "Dynosaur 2"

The KApro "Dynosaur 2" library offers a varied sound set of

- 96 programs,
- 32 wave sequences and
- 82 (including 36 stereophonic) multisamples

for the KORG KRONOS.

In the 1970s, synthesizers from northern Germany had merely been known to insiders. However, this situation radically changed with the debut of a new system concept combining digital oscillators using “wavetable” technology with analog envelopes, LFOs and filters. Very vibrant, delicate, rich, powerful, and unheard synthesizer sounds became in reach and conquered the international pop and rock music. Until about the mid-1980s, three generations of this revolutionary system were presented. Finally, the KApro EXs44 "Dynosaur 2" library brings this unique sound to the KORG KRONOS and demonstrates the stunning sonic dimensions which can be reached when combining the original sound with the unique technique of the KORG KRONOS.

An absolute MUST HAVE for every KRONOS user!

Remark: This library requires the operating system version 3.0.2 or higher.
