

KApro proudly introduce their KORG KRONOS EXs78 Library

KApro EXs78 "Dinosaur 1"

Die KApro "Dinosaur 1" Library bietet Ihnen ein vielfältiges Sound-Set aus 64 Programs und 126 Multisamples für den KORG KRONOS.

Digitale Synthesizer wurden Anfang der 1980er Jahre beliebter. Leider waren diese Geräte nicht in der Lage, die angenehm warmen Sounds zu erzeugen, die der analogen Synthese entspringen. Mitte der 1980er Jahre erreichte ein lang ersehntes, neuartiges Synthesizerkonzept Marktreife, nämlich die Kombination von analoger Klangsintese mit digitaler, echtzeitbasierter Klangkontrolle, und die Welt wurde mit einem der schönsten, fettesten und am rundesten klingenden Analoqsynthesizer mit nahezu unbegrenzten Kombinationsmöglichkeiten von Modulationsquellen und Klangquellen belohnt. KApro widmet die EXs78 "Dinosaur 1" Library dieser einzigartigen Maschine, die umgehend zur Legende geworden ist. Hören Sie selbst: Es gibt hier schöne Analog-Pads und „Sweeps“ und „Buzzes“ und Bässe und „Textures“!

Ein absolutes MUST HAVE für jeden KRONOS User!

KApro proudly introduce their KORG KRONOS EXs78 Library

KApro EXs78 "Dynosaur 1"

The KApro "Dynosaur 1" Library offers a varied sound set of 64 programs and 126 multisamples for the KORG KRONOS.

At the beginning of the 1980s, digital synthesizers became increasingly popular.

Unfortunately, these devices were not able to produce the pleasantly warm sounds that analog synthesis stands for. In the mid-1980s, a novel concept was introduced into the market, namely the combination of analog sound synthesis with digital control, bringing to us one of the most amazing, fattest and roundest sounding analog synthesizers with a nearly unlimited potential of combining modulation sources and sound generating parts. KApro dedicates the EXs78 "Dynosaur 1" Library to this unique machine which has become a legend almost instantly. Listen for yourself to thick and beautiful analog pads and sweeps and "buzzes" and basses and textures!

An absolute MUST HAVE for every KRONOS user!
