

## **KApro proudly presents the KORG KRONOS KRS72 Library**

KRS72 KApro "MOD-7 Dreams"

Die KApro "MOD-7 Dreams" Library bietet Ihnen ein vielfältiges Sound-Set aus 128 Programs und 32 Combinations für den KORG KRONOS.

Nachdem bereits im Jahr 1983 der erste programmierbare und erschwingliche FM (Frequenzmodulation)-Synthesizer den Markt eroberte, wurde 1985 ein achtfacher FM-Synthesizer mit umwerfenden Klangqualitäten vorgestellt. Durch Überlagerung ergaben sich mit diesem 1985er Synthesizer sehr lebendige, realitätsnahe aber auch synthetische Klänge, die zweifellos „Musikgeschichte schrieben“. Dieser 1985er Synthesizer bot sowohl komplexe „Layered“-Klänge – wie eindrucksvolle Streicher, E-Pianos und Synthesizer-Patches – als auch multitimbrale FM-Kombinationsklänge für anspruchsvolle Arrangements auf höchstem Niveau. Mit der "MOD-7 Dreams" Library bringt KApro erstmals eine FM-Library heraus, die frische, bislang wohl nicht gekannte, multitimbrale FM-Kombinationsklänge präsentiert.

Die KApro "MOD-7 Dreams" Library ist ein absolutes MUST HAVE für jeden KRONOS User!

## **KApro proudly presents the KORG KRONOS KRS72 Library**

KRS72 KApro "MOD-7 Dreams"

The KApro "MOD-7 Dreams" Library offers a varied sound set of 128 programs and 32 combinations for the KORG KRONOS.

In 1983, the first programmable and affordable FM (frequency modulation) synthesizer conquered the market. In 1985, a complementing eight-fold FM synthesizer appeared which presented multitimbral sounds with new and overwhelming liveliness and complexity. This machine and its sounds truly "made history". Impressive layered sounds – such as strings, e-pianos and lively synthesizer patches – as well as multitimbral FM arrangements were then possible at highest quality. KApro now offers a fresh sounding FM library which presents mostly unknown and unheard multitimbral FM sounds for the first time – the "MOD-7 Dreams" Library.

The KApro "MOD-7 Dreams" Library is an absolute MUST HAVE for every KRONOS user!
