

Looking for sounds like from outer space or "alien technology"?

Yes? Here we go!

KApro proudly introduce the KORG KRONOS KRS Library

KRS-79 KApro „EXi Atmospheres“

Die **KRS-79 KApro „EXi Atmospheres“** Library bietet Ihnen ein vielfältiges Sound-Set aus 64 Programs für den KORG KRONOS.

Es kamen die EXi-Modelle

- AL-1,
- MOD-7,
- MS-20EX,
- PolysixEX und
- STR-1

zum Einsatz.

Alles beginnt mit dem „Physical Modeling“ der fantastischen "KORG Wavedrum " und setzt sich mit dem „Physical Modeling“ des Alien „Wallop“ fort – klingt irgendwie nach "v'ger", nicht wahr? Dann geht die „Motion Control“ weiter mit rhythmischen Arpeggio- und „Step Sequencing“-Flächenklängen. Nehmen wir zum Beispiel unseren "KApro Ambi Percolate"-Klang und spielen diesen mit JS-Y ganz nach unten und ein wenig „Ribbon“-Manipulation. So kommen sie in Nullkommanichts von „Zero To Hero“, dem „Physical Modeling“ rhythmischer Klangüberraschungen. Oder machen Sie Ihre eigenen „Trance“- und „Chillout“-Erfahrungen außerhalb unseres Sonnensystems. Das verspricht viel Bewegung und noch mehr Emotionen! Unsere klangliche „Alien Technologie“-Reise geht weiter, vorbei an „The FM Shadows“, die auf „Z'ha Doom“ in der MOD-7-Randzone zuhause sind und Resonanzen und erstaunliche Geräusche machen, bis wir schließlich zu unserem Sonnensystem zu üppigen „String Ensemble“- und „Lead“-Klängen zurückkehren. Die neue **KRS-79 KApro „EXi Atmospheres“** Library bringt das alles, filigran und zugleich komplex.

Ein absolutes MUST HAVE für jeden KRONOS User!

Looking for sounds like from outer space or "alien technology"?

Yes? Here we go!

KApro proudly introduce the KORG KRONOS KRS Library

KRS-79 KApro “EXi Atmospheres”

The **KRS-79 KApro “EXi Atmospheres”** Library offers a varied sound set of 64 programs for the KORG KRONOS.

The EXi engines

- AL-1,
- MOD-7,
- MS-20EX,
- PolysixEX, and
- STR-1

were used.

It all starts with the physical modeling of the fantastic “KORG Wavedrum” and continues with the physical modeling of the alien “Wallop” – it’s just like “v’ger”, isn’t it? And the motion control continues with rhythmic arpeggio and step sequencing pads. For instance, take our “KApro Ambi Percolate” pad and play it with JS-Y fully down and a bit of ribbon manipulation. You will be from “Zero To Hero” in no time, physically modeling unheard outer space rhythmic aural surprises. Or collect your “Trance” and “Chillout” experiences, with lots of motion and emotions! Our aural “alien technology” journey will then continue, passing by “The FM Shadows”, living on the MOD-7 “Z’ha Doom” outer rim, resonating and making noises, until we return to our solar system with lush string ensembles and leads. The new **KRS-79 KApro “EXi Atmospheres”** Library brings it all, delicate and at the same time complex.

An absolute MUST HAVE for every KRONOS user!

Program Number	Program Name	Category	Subcategory	EXi OSC1	EXi OSC2
U-G000	KApro Wallop 1	MotionSynth	Motion	STR-1	MS-20EX
